12/2/23	Theoretical and Fireground Calc	7&8	0800-1700		
TBD	SD Driver Operator Test	1-15			SDFMO

- Classes will begin and end at assigned time. Any variance will be announced no less than 6 hours prior to start.
- Because the SDFMO Fire Officer test is gleaned only from the IFSTA curriculum, this class will utilize the IFSTA Aerial and Pumping Apparatus Driver/Operator, 3rd ed.
  - Students will be required to have chapters 1-15 finished and signed off in order to test.
- Because the majority of learning is not contained in the curriculum, but presented in the classroom setting, students may have only 1 excused absence during course. Additional absences or unexcused absences will prohibit the student from being endorsed for testing.
  - Class locations will be added prior to start date.
  - Contact either Joe Tjaden – [joe.tjaden@rapidvalleyvfd.org](mailto:joe.tjaden@rapidvalleyvfd.org) or Adam Kuenkel – [adam.kuenkel@boxelderfire.org](mailto:adam.kuenkel@boxelderfire.org) to secure a seat in the class.
